

MYBL - 3. Call: "Ageing and Place in a digitising world" PartnerInnenanfrage einer Forschungsgruppe aus Schweden

(...) My research interests are within informatics related to health and also learning. I have studied knowledge integration and professional learning in different contexts, and an ongoing project is about technology that can be used for older persons as well as for the professionals taking care of older persons in their homes. We are now just to finish that study, that have been financed by a EU research program Interreg – Sweden and Norway.

My colleagues are Lena Larsson ([lena.g.larsson@vgregion.se](mailto:lana.g.larsson@vgregion.se)) and she is MN Sc and PhD-student at the moment, with many years experiences of primary care, as well as Dr Elisabeth Frisk, Elisabeth.frisk@gu.se, and Dr Björn Johansson, also with research interests within this area.
